

QuickStart

SOLUTION FOR SAP BUSINESS ONE

It is easy for SAP Business One users to build, distribute, and make changes to business-critical reports and data visualizations. Powered by IBM Cognos Analytics and IBM Planning Analytics, anyone can unlock and explore business data to gain greater insight and make better business decisions.

Why Choose QuickStart?

POWERED BY INDUSTRY-LEADING TOOLS

- ✓ Leveraging IBM Cognos Analytics with Watson AI and IBM Planning Analytics
- ✓ Advanced reporting, predictive analytics, and natural language querying to your fingertips

ACCELERATED IMPLEMENTATION

- ✓ A robust solution pre-built and ready to use in 2 to 3 weeks as opposed to 12 months for a comparable custom solution
- ✓ Gain meaningful insights within weeks rather than months
- ✓ Pre-configured data warehouse with reports and dashboards
- ✓ Eliminates lengthy setup times

FRESH DATA

- ✓ Up-to-date insights with automated data refreshes
- ✓ Ensuring your team has the latest information to make informed decisions
- ✓ Refreshes can be customized per a client's needs and on demand

TAILORED ANALYTICS FOR SAP BUSINESS ONE

- ✓ Harness the full potential of your SAP Business One data
- ✓ Comprehensive, customizable dashboards and reports to support better decision-making
- ✓ Empowers businesses with a 360-degree view of operations, from sales and inventory to finance and customer management

BUDGETING & FORECASTING

- ✓ A business planning platform that combines data from multiple sources to help users create budgets, forecasts, and plans
- ✓ Designed to implement collaborative planning, budgeting and forecasting solutions, interactive "what-if" analyses, and analytical reporting capability

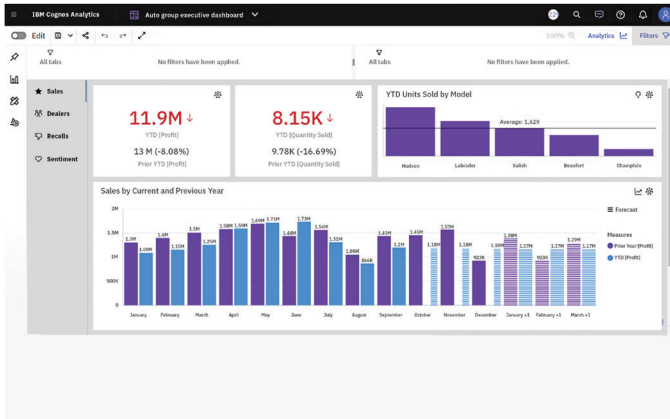

SCALABILITY FOR FUTURE GROWTH

- ✓ Approximately 30 pre-built modules designed to grow with your business
- ✓ Easy integration of additional functionalities, datasets, and advanced analytics capabilities
- ✓ This ensures your analytics environment remains robust and adaptable, supporting your organization's long-term success
